

Dash Cam

| | |
|-----|-------------------|
| 제품명 | Dashcam |
| 컨셉 | AV/AVN 연동 Dashcam |
| 향지 | 유니버설 타입 |

| 주요 기능 | 상세 설명 |
|--|--|
| AV/AVN Connectivity (Wi-Fi Pairing) | Wireless connection to the AV/AVN system via Wi-Fi, enabling real-time video monitoring and easier access to settings. |
| HDR | Essential for reliable evidence capture, providing clear video through multi-exposure blending even in high-contrast environments. |
| Battery Protection High/Low Temperature Cut-off | Automatically shuts off power in extreme temperatures to protect the device and ensure long-term stability. |
| Timelapse/Hyperlapse | Saves extended parking footage efficiently by storing video in a compressed, time-compressed format. |
| Auto Night Vision | Optimizes sensor gain and reduces noise in low-light conditions to deliver clear footage at night. |
